CONFIDENTIAL
The Director of Central Intelligence

C/Comint #21

Washington, D.C. 20505

25X1

NFIB-9.2/74
4 October 1984

MEMORANDUM FOR: National Foreign Intelligence Board

SUBJECT: Unauthorized Disclosures of Classified Intelligence

25X1

1. At the 21-22 September NFIB Management Conference, I announced the establishment within the Security Committee (SECOM) of a central facility to compile and analyze information on the publication of unauthorized disclosures of classified intelligence. The SECOM's acquisition and review of such data should enhance our understanding of the scope and nature of the leak problem, enable us to employ security resources better, assist in referral of cases for action, and provide a basis for stimulating support for legislative and executive action to deter intelligence leaks.

25X1

2. Indispensable to this effort is prompt provision of basic data on intelligence leaks--publication, date, subject matter, apparent document or briefing from which the leak emanated, etc. I request each of you to designate a focal point to ensure referral of the needed data to the Security Committee, and identify the focal point to the Chairman, SECOM,
